Question 2 - Short Text

What did you like/dislike about the app?

9 out of 10 answered

smooth animations, clear and visible information

O

smooth animations, loving the interaction

The app is easy to use, and looks professional. But it is small and it lags a little bit.

controls and navigation are consistent, elements shown are visually pleasing, maybe a little bit too overwhelming at times

navigation menu is good, not very much on the market

The download receipt was a bit unclear to the many steps. reduce the steps. maybe instead of a text link to download make an icon

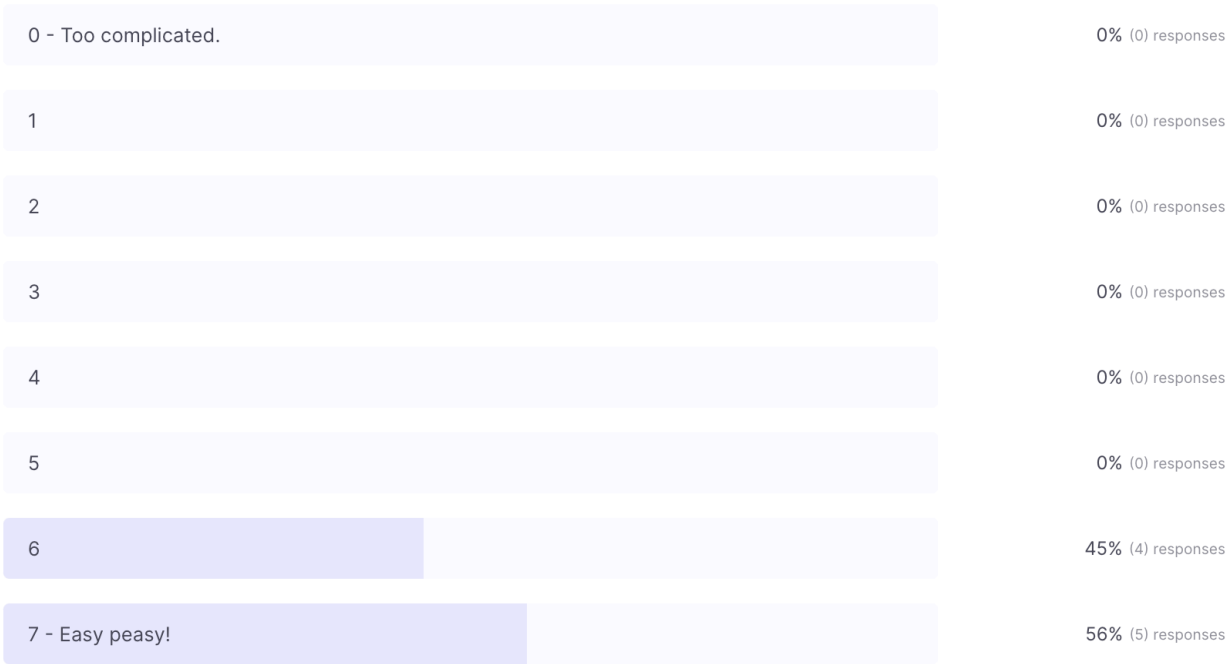

In detail page, the total price in the button seems like the price of the drink. Overall nice design only few screens too much distractions for me

most elements are standard, no stand out ones. May be focus on putting fresher looking elements

Question 3 - Opinion Scale

Was it easy for you to navigate through the menu?
