

**Manage your Restaurants**

## Scan, Order, Pay.

Simple as that.

[How does it work? →](#)

### QR Ordering System

#### Order QR, Fast and Effective.

Guests order more often, faster and with more pleasure using Obero.

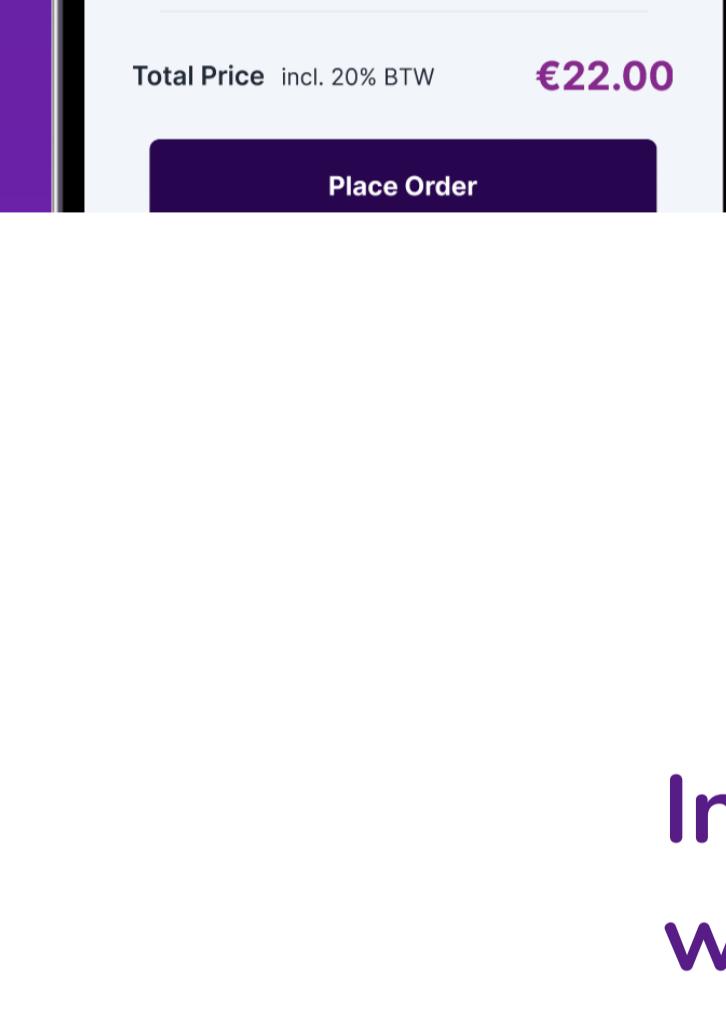

#### Scan,

Scan the QR code with any smartphone.

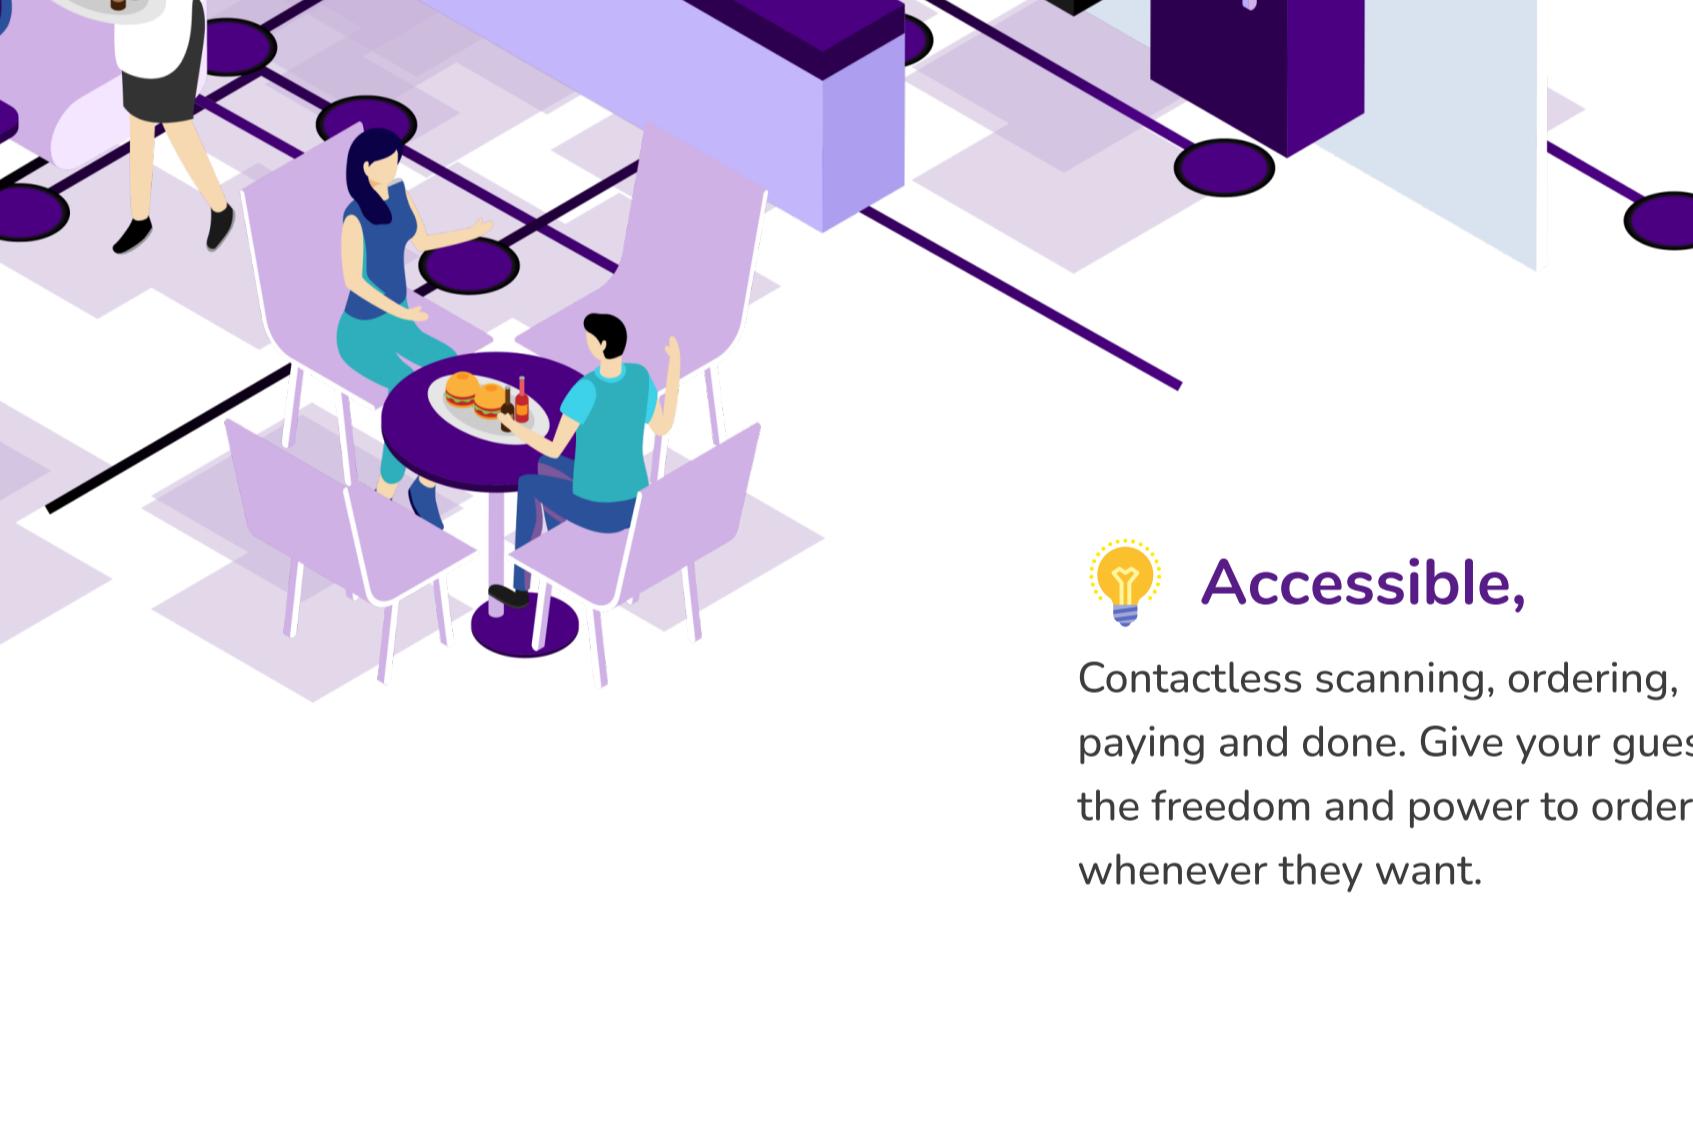

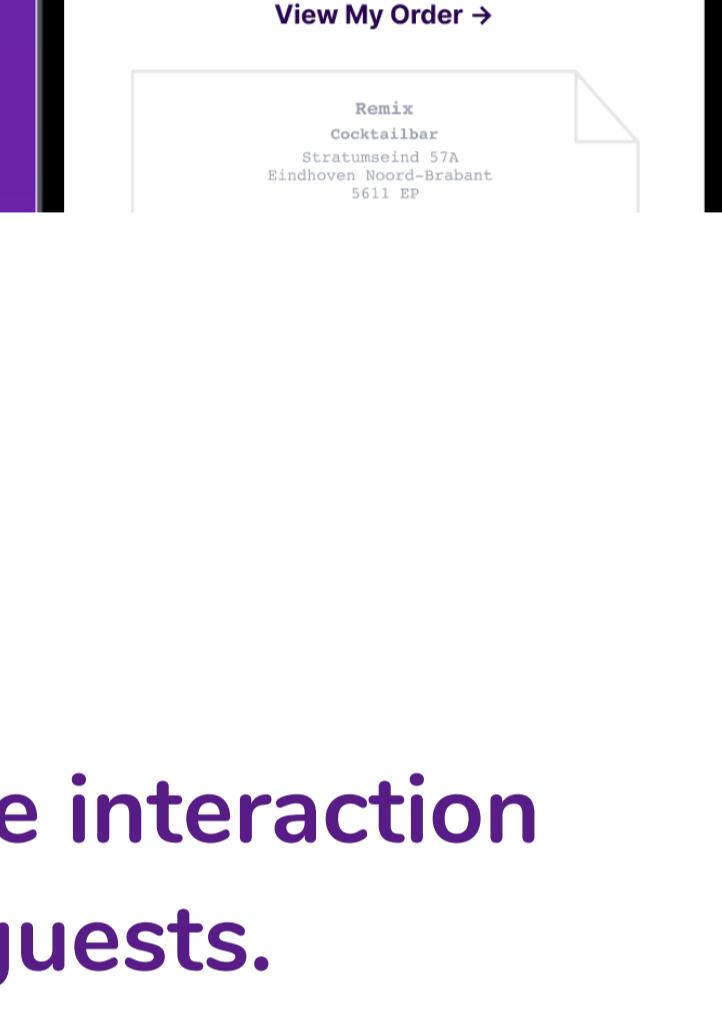

#### Pay,

Come directly to your unique menu and easily order and pay.

#### Done.

The order is forwarded to your staff.

#### Increase the interaction with your guests.

Obero complements your staff. QR orders give your staff more time for a pleasant conversation with guests. In addition, your guests are served faster because they no longer have to wait for the staff.

##### Accessible,

Contactless scanning, ordering, paying and done. Give your guests the freedom and power to order whenever they want.

##### Ease your staff,

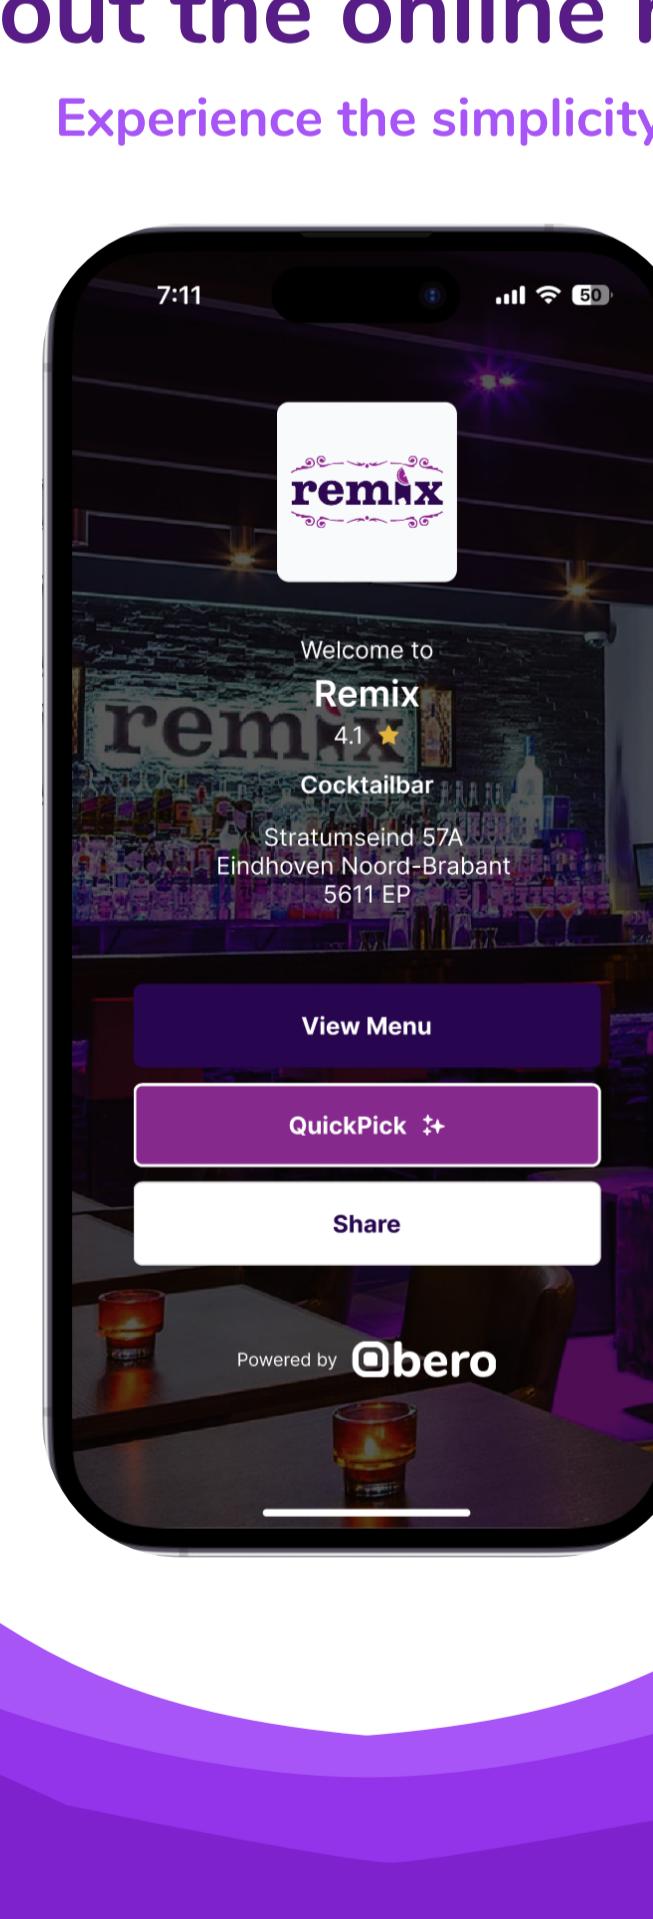

Solve your problems with understaffing during peak hours, for example! Guests don't have to wait so that you can judge your employees on hospitality!

##### Boost your sales.

QR ordering enables quicker sales from your customers - Our slim software tempts guests to order an extra side dish and a drink.

#### Try out the online menu!

Experience the simplicity.
